

ORAL SESSIONS

Tuesday, May 23: MORNING

Geophysics, Petrophysics, and Reservoir Description: From Basins to Pores

- 8:00 ----- Introductory Remarks -----
- 8:05 **Impact of Independent Simultaneous Source (ISS®) survey in Arctic Alaska**
Presenter: Sean Wagner
- 8:25 **Evolution of Land Seismic Acquisition with CSI on the North Slope**
Presenter: Tiffany Carey
- 8:45 **Compressive seismic imaging application at Lookout Field, Alaska**
Presenter: Leo Brown
- 9:05 **Undeveloped petroleum potential of the offshore Santa Maria basin, California**
Presenter: James Ballard
- 9:25 ----- COFFEE BREAK -----
- 9:55 **Regional multibeam surveys for seep exploration and geochemical coring in frontier areas**
Presenter: Kelley Brumley
- 10:15 **Application of Data Analytics and Geostatistics for Integrated Shale Facies Modeling**
Presenter: Shuvajit Bhattacharya
- 10:35 **Basin-scale geomechanics of poroelastoplasticity and its influence on predicting stress-strain behaviors and flow dynamics, a case study from Anadarko Basin, Oklahoma**
Presenter: Chaipornkaew Laainam
- 10:55 ----- End of Morning Session -----

SESSION CHAIRS

Leo Brown
ConocoPhillips Alaska

Shuvajit Bhattacharya
Battelle Institute
