

# ORAL SESSIONS

## Tuesday, May 23: AFTERNOON

### Developments in Onshore Alaska Exploration & Production

- 13:45 ----- Introductory Remarks -----
- 13:50 **Petroleum systems framework of significant new oil discoveries in Arctic Alaska**  
Presenter: David Houseknecht
- 14:10 **Timing of Cretaceous shelf margins in the Colville Basin, Arctic Alaska**  
Presenter: Richard Lease
- 14:30 **Palynological correlation in Cretaceous Brookian strata of the Colville Basin, Alaska North Slope.**  
Presenter: Robert Ravn
- 14:50 **New insights into the Bruin Bay fault-Moquawkie structural trend, northwestern Cook Inlet basin, Alaska, from subsurface constraints and bedrock geologic mapping**  
Presenter: Robert Gillis
- 15:10 ----- COFFEE BREAK -----
- 15:40 **Preliminary observations on the stratigraphy, tectonics, and petroleum geology of Upper Cretaceous rocks in lower Cook Inlet, southern Alaska**  
Presenter: Marwan Wartes
- 16:00 **Iniskin Peninsula conventional and unconventional exploration targets, Jurassic Tuxedni Group, Lower Cook Inlet onshore, Alaska**  
Presenter: David Buthman
- 16:20 **Oil and gas exploration in Nenana basin, Interior Alaska: Drilling, stratigraphy and basin analysis**  
Presenter: Gerry Van Kooten
- 16:40 **Oil and Gas Exploration in Nenana Basin, Interior Alaska: Improved prospectivity and structural history from new seismic programs**  
Presenter: John Konkler
- 17:00 ----- End of Afternoon Session -----

#### SESSION CHAIRS

**Rob Miller**  
BP Exploration Alaska

**Robert Gillis**  
Alaska DGGS
